ENTERPRISE SOLUTION ARCHITECT — DISTRIBUTED SYSTEMS & CLOUD PLATFORMS

Enterprise Solution Architecture | Node.js & Next.js | React.js & Microservices | AWS & Azure Cloud | Kubernetes & Docker | CI/CD & DevOps | Identity (SAML/OIDC/Okta) | SQL & NoSQL

PROFESSIONAL SUMMARY

Accomplished **Enterprise Solution Architect** with **13+ years of architecture, distributed systems, and full-stack engineering experience**, specializing in microservices architectures, High-Level & Low-Level Design (HLD/LLD), global commerce platforms, cloud platforms (AWS/Azure), containerization (Kubernetes, Docker), and automated CI/CD deployment pipelines. Hands-on expert in Node.js, Next.js, React.js, Python, TypeScript, REST API services, identity & security integration (SAML, OIDC, Okta), relational databases (PostgreSQL, SQL Server), and distributed NoSQL databases (MongoDB, Cassandra, Redis). Proven leader directing cross-functional engineering teams and providing end-to-end architectural governance across complex enterprise environments. IIT Kanpur Certified Full-Stack Developer with a B.Tech in Computer Science.

CORE COMPETENCIES

- **Enterprise Architecture & Strategy:** High-Level Design (HLD) & Low-Level Design (LLD), Distributed Microservices Architecture, RESTful API Services, Event-Driven Systems, Domain-Driven Design (DDD), System Integration & Scalability.
- **Cloud Platforms & Containerization:** AWS Cloud Infrastructure, Microsoft Azure, Container Orchestration (Kubernetes, Docker), Infrastructure as Code (IaC), CI/CD Automated Pipelines.
- **Identity, Security & Data Management:** Enterprise Identity & Access Management (SAML, OIDC, Okta), PostgreSQL, SQL Server, MongoDB, Cassandra, Redis Distributed Caching.
- **Team Leadership & Cross-Functional Alignment:** Mentorship & Coaching, Code Reviews & Pair Programming, Multi-Team Leadership (2+ Pods / 10+ Engineers), Global Stakeholder Alignment, SRE/QA/Security Collaboration.

TECHNICAL SKILLS

- **Languages & Frameworks:** Node.js, Express.js, Next.js, React.js, JavaScript (ES6+), TypeScript, Python.
- **Architecture & Integration:** HLD/LLD, Microservices Architecture, REST APIs, SAML, OIDC, Okta Authentication, Event-Driven Systems, System Security, Fault Tolerance.
- **Databases & Storage:** PostgreSQL, SQL Server, MySQL, NoSQL (MongoDB, Cassandra), Redis Caching, Data Modeling & Schema Design.
- **Cloud & DevOps:** AWS, Azure, Kubernetes, Docker, CI/CD Automated Pipelines, Log Management & Observability, Linux/Unix.
- **Engineering Tools & Practices:** Jira, Confluence, Automated Testing Frameworks, Git Workflows, Code Review Audits, SLA Compliance.

PROFESSIONAL EXPERIENCE

Enterprise Solution Architect | Valuecast Venture | Gurgaon / Noida | **11/2025 – 09/2026**

- **Enterprise Architecture & Governance:** Architected distributed microservices platforms and REST API solutions using Node.js, Next.js, Express.js, and React.js, establishing HLD/LLD blueprints, enterprise security controls, and high-throughput data models across multiple pods.
- **Identity, Security & Data Layer:** Integrated enterprise Identity & Access Management using SAML, OIDC, and Okta; designed polyglot data architectures leveraging PostgreSQL, SQL Server, and NoSQL stores (MongoDB, Cassandra, Redis) for optimal performance.
- **Cloud Infrastructure & Container Orchestration:** Engineered multi-cloud architectures (AWS/Azure) utilizing Docker containerization, Kubernetes orchestration, and automated CI/CD pipelines to guarantee high availability and continuous deployment.
- **End-to-End Execution & Risk Mitigation:** Owned initiatives throughout the entire lifecycle from planning and design through release and production validation; proactively identified delivery risks, technical debt, and cross-team dependencies.

Enterprise Solution Architect | Jaipur Living Inc. Pvt Ltd | Delhi / Noida | **12/2022 – 06/2025**

- **Commerce & Pricing Services Architecture:** Directed full-stack development streams for global D2C commerce platforms, overseeing regional pricing rules, catalog integrations, discount/promotional logic, and payment processing services.
- **Agile Leadership & Cross-Functional Alignment:** Facilitated daily Scrum ceremonies, sprint planning, and backlog refinement in partnership with Product Managers, QA/SDET, SRE, and Security teams to balance velocity with engineering quality.
- **Operational Excellence & RCA:** Owned service lifecycle and production stability, conducting root-cause analysis (RCA) on performance bottlenecks, optimizing SQL (PostgreSQL/MySQL) queries, and driving preventive corrective actions.

Enterprise Solution Architect | Hexaware Technologies | Noida | **02/2021 – 12/2022**

- **Distributed Systems Design & Discovery:** Conducted HLD/LLD technical discovery for enterprise client accounts, designing RESTful API microservices, integration blueprints, and scalable backend workflows.
- **Code Reviews & Quality Assurance:** Standardized code review practices, unit/integration testing guidelines, and CI/CD pipelines, driving continuous technical growth and mentoring junior engineers.

Lead Engineer & Software Developer | Dynamic Beneficial Accord Marketing | Gurugram | **09/2017 – 06/2020**

- **Full-Stack & Sub-Systems Engineering:** Developed scalable web sub-systems and microservices using Node.js, Express.js, React components, and MySQL REST services.

Senior Software Developer / Engineer | Mamsys / Claritus / Bluethink | Noida | **11/2012 – 09/2017**

- **Backend Services & Software Engineering:** Engineered backend modules, RESTful web services, database schemas, and integration components for enterprise applications.

EDUCATION & CERTIFICATIONS

- **B.Tech in Computer Science**
- **Full Stack Development Certification** – IIT Kanpur

- **Adobe Certified Professional** – Adobe Commerce / Magento
